Sir:

Applicant submits the following statement on the substance of the interview held on April 20, 2010.

Applicants' representative discussed claim 24 and Figure 14 of the Specification with the Examiner. Applicants pointed out that Fig. 14 depicts memory expansion and contraction judgers that expand or contract allocated memory capacity as opposed to simply selecting one of a fixed available number of memories. These expansion and contraction judgers are examples of memory capacity control as claimed in claim 24.
